Report for TestSet 12002-12004,11357,11408

1.Test Result

■ Passed	63.73%
■ Failed	14.65%
■ No Run	21.62%
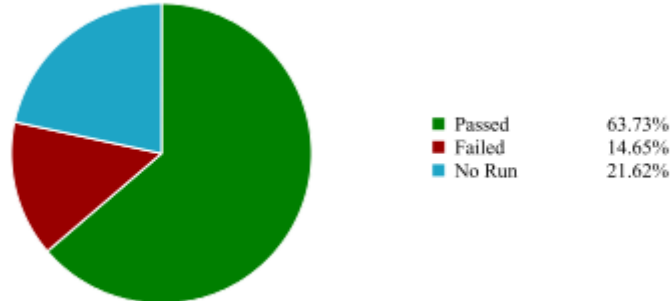

2.Bug List

TestsetID	BugID	Summary	Status	Priority	Reporter	Assign_to	Case_num	Case_name
12002	1706642	deactivate command returns "Unable to connect to the control cluster"	assigned	P0	llai	sneginha	1	CCPCluster3Nodes_FT_TotalPersistentLoss
12002	1709372	The CCP Cluster became "not active" after power off/on of 1 out of 2 CCP nodes	resolved	P0	jiaxinchen	sneginha	1	CCPCluster2NodesNoWriteQuorum
12002	1714675	TCP/UDP traffic dosen't work after done some testing	resolved	P0	jiaxinchen	asonthy	1	CCPClusterShutdownTNRemoveCCP
12002	1714788	Maximal count of pending signals (120) exceeded	new	P1	jiaxinchen	miriyalak	1	CCPClusterConsistency3NodesLargeLS
12002	1697252	UI: No redline or cross when cannot deliver to destination port	closed	P1	mqing	ranganath	1	ShowRedLineForFailure
12002	1712331	Monitor free space on log partition and take action if it is below a safe threshold	new	P1	jiaxinchen	ablagovestnyy	1	CCPClusterFullLogDirectory
12004	1695152	'get transport-nodes status' returns N/A on controller 3	closed	P1	llai	vickyl	1	CCPCluster3Nodes_FT_TotalPersistentLoss
12004	1702408	failed to add the 3rd manager node into MP cluster	resolved	P0	jiaxinchen	goyalk	1	CCPCluster3Nodes_FT_TotalPersistentLoss
12004	1706642	deactivate command returns "Unable to connect to the control cluster"	assigned	P0	llai	sneginha	1	CCPCluster3Nodes_FT_TotalPersistentLoss
12004	1717410	Failed to join control-cluster after power on controller.3	new	P1	llai	sneginha	1	CCPCluster3Nodes_FT_TotalPersistentLoss
12004	1711659	CCP Vmotion case failed as Unable to access vmx file	new	P1	llai	llai	1	CCPCluster3Nodes_Vmotion
12004	1708312	On KVM host command "/var/run/openvswitch/nsxa-ctl vni/list" has inconsistent output with "get controllers"	closed	P1	llai	fpan	1	CCPClusterConsistency3NodesLargeLS
12004	1697252	UI: No redline or cross when cannot deliver to destination port	closed	P1	mqing	ranganath	1	ShowRedLineForFailure
12004	1711665	CCPClusterFullLogDirectory failed as "SSH session not active"	new	P1	llai	llai	1	CCPClusterFullLogDirectory

3.Failed cases with no Bug Linked
